

ELECTRIC ROLLERAMIC

FREE-HANGING, WALL- OR CEILING-MOUNTED

■ Engineered with a direct drive motor, the wall- or ceiling-mounted Rolleramic electric projection screen is an economical option for large venues in auditoriums, lecture halls, hospitals, hotels, and churches. The motor is housed in an all wood case and is insulated to minimize friction, which provides smooth, quiet operation.

This free-hanging, fiberglass-backed projection screen maintains flatness thanks to the weight of the screen and bottom dowel.

FEATURES

- Housed in 3/4" (19 mm) warp resistant composition wood with hinged panel for motor compartment. Case finished with a coat of black primer paint.
- Heavy-duty electric projection screen with end mounted motor and direct drive.
- **WARRANTY:** One year against defects in materials and workmanship.

OPTIONS

- **Control options available.**
